## **ANALYSIS OF FEED BACK:**

Feedback given by students is quite encouraging testimonial to the efforts put up by the Faculty and administration for the development of college and teaching and learning process of the college, however answer to the question *“Do you think this degree will get you a job”* was not in favour of the programme opted by the student, response to this question secured only 6.2 marks which falls into the category of average like wise answer to the question *“Improvement in Discipline related behavior”* Fetched 7.9 marks, college needs to work on these two areas more seriously , focus should be on Learner centric methodologies well communicated to students , so that trust shall be generated into students.

## **ANALYSIS OF FEED BACK:**

Feedback given by students is quite encouraging testimonial to the efforts put up by the Faculty and administration for the development of college and teaching and learning process of the college, however answer to the question *“Do you think this degree will get you a job”* was not in favour of the programme opted by the student, response to this question secured only 6.64 marks which falls into the category of average. Response to the question *“Improvement in Discipline related behavior”* Improved in comparison to 2015-16. College has chartered a plan to start more value added and add on courses to overcome the issue faced about job opportunities. Focus for session 2017-18 should be on Learner centric methodologies well communicated to students, so that trust shall be generated into students.

## **Feed Back Analysis**

Out of 690 students appeared in the final semester examination, 568 students cleared the final examination and 212 sample size was considered for evaluation, this number was 37.32 % of the total population of passing out students. Students were randomly picked for providing feedback. Feedback was collected after the final results to avoid any unwanted controversy among the students. Feedback was pen paper based. Analysis was tabled in the Janabhagidari Samiti and in Staff meeting held for the purpose.

As per the feedback received students gave highest score to the development of scientific aptitude in them after their admission in the college at 8.85 percentile, development of discipline related activities was scored least by students with 7.60 percentile.

For all the ligands provided feedback and analyzed the score ranged from 7.60 to 8.85 Overall score was 8.24 on the scale of 10. Which leads to very good scoring by students, however there is a possibility to improve on areas like awareness regarding cleanliness and awareness about discipline related activities.

**INSTITUTE OF EXCELLENCE IN HIGHER EDUCATION (GoMP)**  
**A GRADE ACCREDITED THROUGH NAAC**

**STUDENTS FEED BACK SESSION 2018-19**

1. **Introduction:** - Feedback is an essential part of all education processes. This feedback gives us very important information about all the processes and aspects of higher education. Feedback clearly and explicitly identifies what needs to be improved in order to solve the problem.
2. **Sample and Tools:** - Data is collected through questionnaires by randomly selected students of 6<sup>th</sup> sem of every faculty in UG Programme and 4<sup>th</sup> semester of every PG Programme. Simple size was selected at whole population (Total numbers of students) of 6<sup>th</sup> sem students and 4<sup>th</sup> semester of PG programme. A sample table is constructed.

Tools: - Feedback questionnaire is used for the analysis.

Course assessment Questionnaire and Overall rating of programme by students

3. **Analysis and interpretation of the data:**- The data analysis is done in two ways

1. Direct analysis of questions on a linear scale of 0 to 5

Where 0 is strongly disagree

2. Disagree
3. Not sure
4. Agree
5. Strongly agree

2. Overall satisfaction level is interpreted on the basis of scoring table.

$$\text{Scoring Equation Used} = \frac{\text{Total Score}}{\text{Total number of students}}$$

$$\text{Total Score} = \sum n_1 X S_1 + n_2 X S_2 + \dots$$

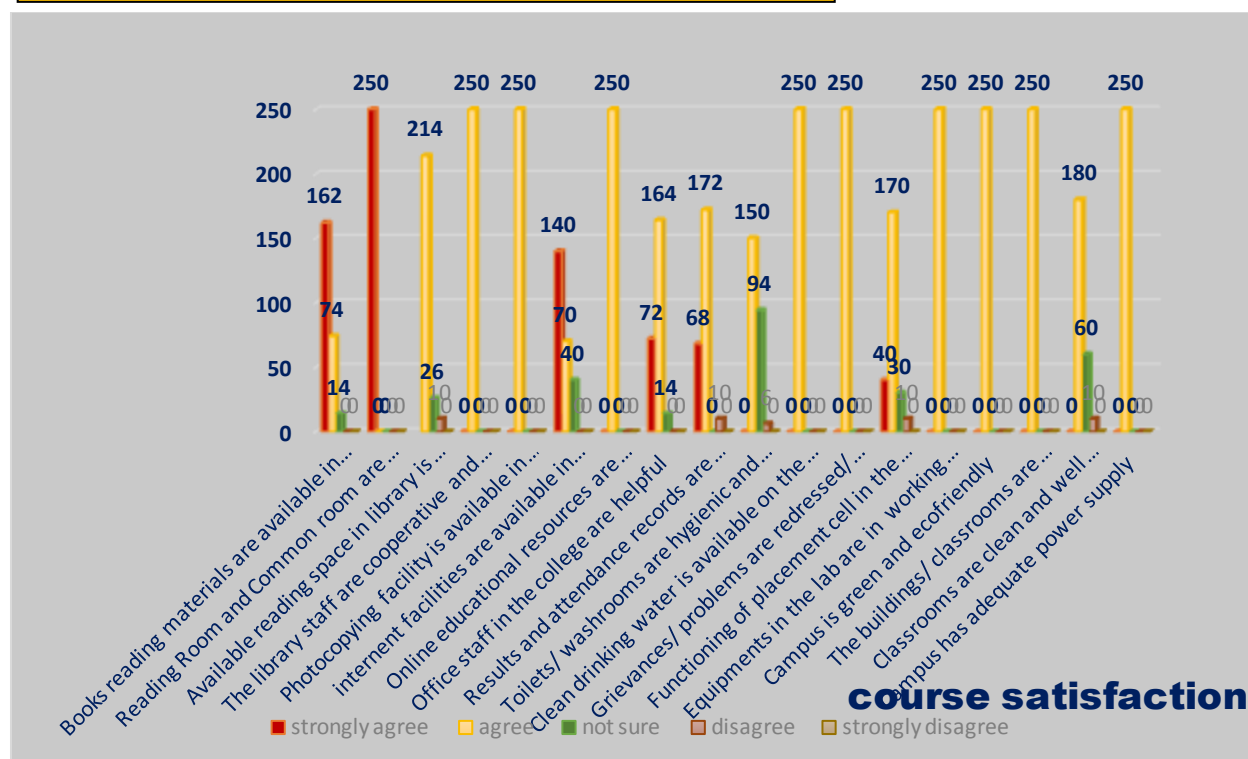

Through the evaluation of feedback scale questionnaire was interpreted on the basis of scoring table. With this the most satisfying as well as least satisfying facility was identified.

**FIGURE 3 . OVERALL SATISFACTION LEVEL**

**ANALYSIS:**

Out of 754 students appeared in the final semester examination, 682 students cleared the final examination and 250 sample size was considered for evaluation, this number is 30% of the total population of passing out students. Students were randomly picked for providing feedback. Feedback was collected well after the final results to avoid any unwanted controversy among the students. A fair participation was observed across the programmes. Feedback was pen paper based. Analysis was tabled in the Janabhagidari Samiti and is being tabled in Staff meeting held for the purpose.

As per the general feedback received

- Students have chosen agree or strongly agree as answer to the most of the facilities .
- None of the student have chosen strongly disagree as the response field
- However in some of the legends less than 4% of the students have chosen to answer that they disagree with the question being asked.

According to the scoring table the highest level of satisfaction was expressed for reading room and common room facility. However students comparatively voted low for availability of reading space in the reading room.

Least satisfaction was observed for

- Availability of Clean drinking water on the campus
- And cleanliness and maintenance of Classrooms

College and IQAC needs to focus on the issue and this has been taken up as an agenda for the next session. Only in these two legends we are scoring below 75% so it needs to be improved. Maximum scoring is 100% and average median scoring is 80%.
