### INDUCTION PROGRAM (DEEKSHARAMBHA)/ ZERO CLASSES/ BRIDGE CLASSES

Transition from school to college life is one of the most challenging events in a students' life. When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. They come into a new unfamiliar environment, and many of them have little knowledge of a college. An important task, therefore, is to welcome new students to Higher Education and prepare them for their new role. Student Induction is designed to help in the whole process. At Govt. Madhav Science College Ujjain Induction is taken seriously, and as something more than the mere orientation Programme, It inculcate in them the ethos and culture of the institution, help them build bonds with other students and faculty members, and expose them to a sense of larger purpose and self-exploration. In other words, it is a well-planned event to educate the new entrants about the environment in the institution, and connect them with the people in house. Student Induction Programme engages with the new students as soon as they come into the institution; before regular classes start.

At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed.

Students Induction programme has adopted the objectives as declared by UGC , and cover a number of different aspects as per UGC SIP document
